

Let Us Monitor Your IRS Accounts

The IRS is hiring 80,000+ employees and audits are set for a massive increase over the next couple of years.

IRS Account Monitoring allows IRS issues to be detected early and addressed or fixed before the IRS is aware. This can reduce or prevent penalties that can be as much as 50% or more of the tax debt.

Monitoring

- **Detects most audits 6 months in advance**
- **Looks for missed stimulus payments and refunds in the current and past 3 years**
- **Advanced Identity Theft Detection**
- **Find forgotten retirement accounts**
- **Reduces chance of refund delays**
- **Provides an annual comprehensive Tax Analysis Report**

This product monitors for issues. Services required to address issues and opportunities are not included in the Account Tracking Product and are charged separately.
